

# An Index of Obituaries in the New Zealand Medical Journal, 1887–2008

Compiled by Basil R Hutchinson

## Introduction

In 2003, I completed a Bibliography of Anaesthesia-Related Articles in the *New Zealand Medical Journal*, 1887–2000; this was published on CD by the Australian and New Zealand College of Anaesthetists in 2005. While researching this work I decided that a list of obituaries of New Zealand anaesthetists would also be a useful tool for the historian, so in 2005 I began this task.

Having read the obituaries in some twenty years of the *New Zealand Medical Journal*, I realised that an index of all the obituaries in the *Journal* would be a useful source for medical and family historians, so the document below is the result. I am grateful to staff in the New Zealand Medical Association office (Wellington), the Library in the Auckland War Memorial Museum, and the Medical School Library, University of Otago (Dunedin) for access to journals.

Basil R Hutchinson,  
35A Fernleigh Avenue,  
Epsom, Auckland 1023.

June 2006.

## Explanatory Notes

- All obituaries in the *New Zealand Medical Journal* from 1887 until the end of 2008 are listed. Female doctors are distinguished by (F) and “nee XXX” if married. Names are set out alphabetically, followed by the year, the volume number and the page number. The volume numbers, 1–9, for the years 1887–1896, are followed by (OS) to indicate “old series”, as when the *N Z Med J* recommenced in 1900, it was with volume 1.
- Bold numbers represent issue numbers of the *N Z Med J* in 1905 to 1910, as each issue for those years began with page 1. A few obituaries were printed in Supplements to the *Journal*—they are indicated by the year, S. and the page number.
- The printed *N Z Med J* ceased in mid-2002 and the *Journal* appeared on-line from 7 June 2002; for the online journal, the year is followed by the volume number, the issue number and the date (0.00). There are no page numbers for the online journal.
- A number of index references in the *N Z Med J* are incorrect. These have been corrected in this document. Not all doctors are featured in these obituaries—unless one was a member of the New Zealand Medical Association or the NZ Branch of the BMA, there would probably not be an obituary. Indeed, membership of NZMA did not automatically result in an obituary in the *Journal*, so not all deceased medical practitioners are included.
